Growing the Grapevine Urban Forest

City Sponsors 23rd Annual Tree-Sharing Program

Did you lose trees in the June storm? Would you like to provide shade for your home and yard? Would you like to help grow the Grapevine Urban Forest?

The City of Grapevine is proud to host its annual Tree-Sharing Program for Grapevine residents for the 23rd consecutive year. This is your opportunity to partner with the City of Grapevine in sharing the cost, 50/50, of up to two trees per household.

Residents pay only \$90 per 30-gallon container-grown tree—and the price includes planting and a six-month, one-time replacement guarantee. Trees are eight-to-twelve-feet tall and must be planted at least 30 feet apart. The trees offered this year are Red Oak (*Quercus shumardii*), Live Oak (*Quercus virginiana*), Bur Oak (*Quercus macrocarpa*), Chinkapin Oak (*Quercus macrocarpa*), and Chinese Pistache (*Pistacia chinensis*). All the trees offered are locally grown and do well in Grapevine.

Clockwise from left: Chinkapin Oak, Bur Oak, Red Oak, Chinese Pistache, Live Oak

Tree sales begin Monday, October 5th, from 8:30 am–4 pm at the Grapevine Municipal Service Center, 501 Shadybrook Drive, on a first-come, first-served basis. Two trees per household will be allowed for purchase. Payment is by check or money order only, payable to the City of Grapevine for the amount of purchase. 🍇

GREENER Cleaner Grapevine

Save Water. Nothing Can Replace It! Just Try Living Without It!

Why do we need to conserve our water? Because we need it to drink, to clean, to cook, to bathe, and to play.

North Texans depend on a system of reservoirs for the water needed to do all those things. The water supplies we depend on are not an endless resource. Drought conditions are a part of life here in North Texas, and the number of people living in our region is expected to double in the next 50 years. That means the demand for water will certainly rise. Meeting those new demands will be a challenge.

That is why water conservation is so important. Plans call for 28 percent of our future water supplies to come

from conservation and water reuse. That is smart because the alternatives are limited and expensive. If you and your family make a real effort to save water, it will help us all stretch our water resources—and our dollars—as far as possible. It's a simple choice.

Why not start today?

Amazing water facts:

- A typical American uses an average of 101 gallons of water per day; the average European uses 53 gallons.
- It takes about 2,500 gallons to put an inch of water on a 4,000 square-foot yard. Doing that every five to seven

days from June through September adds another 40,000-60,000 gallons to your water bill, at a cost of about \$30-\$45 a month.

- Letting your faucet run for five minutes uses about as much electricity as a 60-watt light bulb does in 14 hours.
- Of the 345 billion gallons Americans use daily, less than 3 percent is used for drinking; 41 percent is devoted to agriculture; 39 percent is consumed by power plants.
- Average annual household water use is 127,400 gallons, which is about 350 gallons per day. (Source: EPA)

Live Online Homework Help – Thanks to a special program sponsored by the Friends of the Library, students in Grapevine never have to be stumped by tough homework assignments again.

The Grapevine Public Library now offers *Live Homework Help*, an online tutoring service through Tutor.com that connects students to expert tutors in math, science, social studies, and English via the Internet.

Students and tutors can review specific homework questions, as well as subject-specific concepts using features such as controlled chat, an interactive white board, and shared web browsing in the Online Classroom, now compatible with Mac and PC. Tutors and students can type math equations using a special math tool, share educational web sites and much more for a rewarding learning experience.

All tutors are certified teachers, college professors, professional tutors, or graduate school students from across the country. Students from kindergarten to 12th grade, college introductory level and adult learners may access this program any day of the week from 3 pm to 10 pm by clicking the Live Homework Help icon on the Library's website at www.grapevine.lib.tx.us. Spanish-speaking tutors are also available in math and science Sunday through Thursday from 3 to 9 pm.
